**DOCUMENTATION:** 32 photographic views organized linearly, beginning at the Delaware/Pennsylvania State line, proceeding north to the Pennsylvania/New Jersey State line. Sites are located according to section and milepost designations used by the railroad.

Similar aerial photographs were taken of railroad structures along the entire 456-mile route of the Northeast Corridor (NEC). Readers are advised to check NEC entries for the District of Columbia (HAER No. DC-3), Maryland (HAER No. MD-45), Delaware (HAER No. DE-21), New Jersey (HAER No. NJ-40), New York (HAER No. NY-121), Connecticut (HAER No. CT-11), Rhode Island (HAER No. RI-19), and Massachusetts (HAER No. MA-19). See Field Records for HAER No. DC-3 for strip maps used during aerial reconnaissance and for other references.

**NOTE:** These photographs are U. S. Government materials and not subject to copyright. However, the courtesy of a credit line identifying the Historic American Engineering Record (HAER) and the photographer would be appreciated. All photographs were taken by Jack E. Boucher in April 1977.
